Bloorview

KIDS FOUNDATION

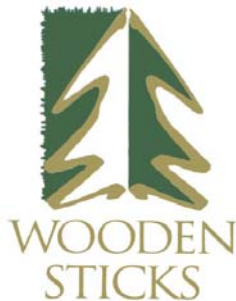

From disability to possibility

Around the world, nearly 200 million children experience some form of disability. In Ontario alone, there are almost 230,000 kids with disabilities – and half of them have disabilities so complex that they require access to specialized care.

Bloorview Kids Rehab is the gold-standard in care, research, and education for kids with disabilities and their families. As Canada's largest children's rehabilitation and complex continuing care teaching hospital, it is an international leader in childhood disability. Bloorview pioneers treatments, technologies, therapies and real-world programs that give children with disabilities the tools to participate fully in life. Regardless of their disability, kids just want to be kids.

Bloorview has 650 inpatient admissions and 53,000 outpatient visits each year from across the province, Canada and around the world. Bloorview serves children from birth to 19 years old with disabilities.

The Bloorview Research Institute conducts research focused on enhancing care, developing assistive technologies, and evaluating the barriers restricting inclusion of children with a wide range of disabilities including brain and spinal cord injuries, cerebral palsy, autism, epilepsy and genetic disorders.

Bloorview Kids Foundation develops relationships and raises funds in the community for Bloorview Kids Rehab. Every day, donor support enables our world-class medical care, research and education programs to enrich the lives of thousands of children with disabilities and their families.
