

The Four Toronto Component Societies with The Toronto Academy of Dentistry would like to invite you to following information session:

“ITRANS & CDAnet – At Work for You. Electronic Claims and So Much More”

The Dental Office of the Past, Present and the Future.

The changing communications needs of patients, payors, suppliers, professional bodies, and the Electronic Health Record, and how the dental office can meet these challenges and maintain and improve office efficiency and patient care.

The Internet - Is It Safe?

Details of the risks and remedies for communicating over the Internet, managing access and making the Internet work for your practice.

ITRANS & CDAnet.

What are they and how and when should you subscribe. Where can you find information that will be useful for the practice dealing with the submission of patients' claims.

Securely Exchanging Clinical Documents.

Using ITRANS security features, authentication and encryption, to respect Privacy Legislation when sharing patient information.

Ms. Viviane Baliki-Allard (FICB) is the Marketing and Business Development Coordinator at Continovation Services Inc. (CSI), a wholly owned subsidiary of the Canadian Dental Association. Since joining CSI in the fall of 2003, Ms. Baliki-Allard has been instrumental in the launch of the ITRANS Suite of Services. She has travelled coast to coast promoting the use of the Internet to: transmit dental claims; debit and credit payments; and, securely exchange clinical patient information while respecting privacy legislation.

Mr. Paul Knapp is the Technical Consultant for Continovation Services Inc. Mr. Knapp has played a key role in the development, maintenance and implementation of the CDAnet standards since the early 1990's, and continued this role with the development and implementation of ITRANS. Mr. Knapp also represents organized dentistry to key Standards Development Organizations both in Canada, and Internationally.
